THE BOARD OF REALTH. AMUSEMENTS.

The Theater. Last night there was a good house at the Thester to witness Mrs. Bowers in Romeo and Julet The play was passably well presented, and in more than one act Mrs. Bowers, in the role of Juliet," was both effective and interesting. Her delineation of the character of "Juliet" was quite natural, and nasmuch as both experience and youthul appearance are required for its faithul portrayal her rendition was all the fore creditable to her as an actress, and certainly quite pleasing, in fact, delightful to the audience, whose appreciation was manifested by hearty encores. In her soliloquy, just before taking the an-acthetic, her greatest effort was made, and in this she wen a brilliant triumph. In this scene Mrs. Bowers was truly artistic, and gave to the character of "Juliet" s lifelike and realistic effect that but few ladies of her profession can eccomplish. This afternoon and to-John Love's Sacrifice will be presented. We advise our amusement-loving people to avail themselves of this opportunity to see Mrs. Powers, as to-night is her farewell appearance.

Interesting Report of the Presiden; Quarantine-the City Dispensary-Cleaning Streets, Ltc.

The first annual report of the Memhis board of health, as submitted to the ity council, has been printed in pamphlet form and is now before us. The members of the health board are Dr. B. W. Ament, president; Dr. Frank Rice, health officer, and Dr. Richard Taylor, secretary, and to the views and sugges-tions of these gentlemen as set forth in he report, due attention should be paid by the city council. If we mistake not the report has merely been "received" by the city council, and as yet no action has been had for the recommendations of Dr. Avent, whose experience, practical suggestions and protective policy commend themselves to the earnest con-sideration of the municipal authorities. The APPEAL has already given a synopsis of the mortuary statistics and other features contained in the report, and we now subjoin other extracts of equal importance and interest to the HAPPY HOLLOW,

CLEANING APARATUS, ETC. The system previously in operation for the removal of the contents of privies, water-closets, etc., by buckets and carts, was continued by the board of health during the spring and first summer months of the past year, and permits were granted to such applicants as were best prepared to do the work. The plan proved to be very objectionable, and was tolerated only as a necessity. The offensive odor emitted from the carts in prining the streets caused much complaint, though the entire work was The Sunday Appeal will be unusu-ally attractive, and offers the best in-ducements for advertisers to reach a troduced the odorlers excavator, which was immediately substituted for the carts, and has been used since that time. This apparatus has been adopted by most of our Is ge citics to the exclusion of all others, and has received universal commendation wherever used. The experiments made with it in this city, so far as my knowledge extends, have been entirely satisfactory. I recom-mend its general use, and hope that the enterprising gentlemen who have intro-duced it may be liberally patronized. Though a private enterprise, dependent upon property-holders for successful operation, it becomes suggestive at least, that the general council take such action upon the subject as will insure mutual protection to all concerned. Such action will be the more necessary when public work has to be done.

CITY DISPENSARY. By virtue of his official position, the secretary of the board of health is made dispensary physician, and required to examine and prescribe for all indigent sick who may apply at his office free of charge. The object of the dis-pensary is two-fold—first, for the benefit of the sick who have not means to employ physicians, and second, to relieve the city hospital of patients who would otherwise be a heavy expense. The present dispensary is located near the center of the city, which makes it as accessible as possible for any one institution of the kind.

TOTAL EXPENSES. The aggregate expenses of the board of health to the city during the past year is twenty-eight thousand eight hundred and six dollars and sixteen cents. This includes every expenditure connected with the operations of the board. The account may be found itemized, if required, in the office of the city JOHN WALSH, Undertaker, 344 Sec- comptroller, from which the above aggregate has been procured. To say nothing of the auhealth is incurred in the removal of deposits which would, under other circumstances, be carried off by ordinary surface drainage. These evils cannot be remedied, nor can your population enjoy its attainable immunity from disease until every street and alley in your city is paved with rock. Flanks reads or wooden pavements will not suffice. It must be rock. Your Nicolson pavement even, unless removed, will in al probability become a source of diseas in a few years. I am aware that the great expenditure necessary to a work of such magnitude cannot be borne with the present embarrassed condition of That portion of the city known as facts be stated, and that some enter-Happy-Hollow, from its proximity to prise, either public or private, be put i the river, was almost entirely submerged during the wet season, and consequentmotion by which the object may be

BUILDINGS AND PREMISES. An evil common to most cities found to be prominent in yours. I allude to the unsystematic plan of erecting houses and arranging premises to be rented in most instances to the laboring classes of your city. It cannot be de nied that such localities irrequently be come the starting point for disease Justice demands that this evil receive the consideration of your body, and that a more stringent ordinance be adopted health cannot remedy the evil nor can it insure the safe-ty of the city from disease by any system of sanitary improvement within its power. The enactment of law with heavy penaltics attached, and its enforcement, is the only remedy. And now, gentlemen, having presented for your consideration the transactions of the beard of health during the past year, with such suggestions as the future of your city sceme to demand, I close this report with the expression of gratitude to the Divine Being for the good health which has prevailed amongst us during the entire year. It affords me pleasure to state also, that entire unanimity has prevailed amongst the different members of the board of health, and that each one has shown a desire to promote the health sud prosperity of your B. At this late date he is followed to his home and arrested. We are reliably informed that there is nothing in the case. Had there been any just ground for his arrest such would have been executed long ago, as

the Arkansas authorities knew all the time that Mr. M'Dowell was at his home in this city. We understand that Mr. M' Do well has een a partner in business with Mr. M'Cullough, and was with him when the latter met two negrors who had formerly been in his employ, but had swindled him out of money and then run off. Being exasperated by the ne groes and their bad conduct, M'Cullough killed them. Mr. M'Dowell had nothing to do with the homicide, and it is safe to say that he will be honorably
